The Success Triangle

Your motivational presentation was just the right ticket. It was on target with the messages we wanted to convey. The best part is that the responses were overwhelmingly positive. Thank you again for helping us create the right attitude to move forward as a single sales organization.

— Michael Skelton, Vice President, NetManage

I left your program with some new and renewed perspectives on handling life's issues.

— Theresa Bone, President, American Society for Training & Development San Diego

Your program was a successful and memorable one. The feedback was overwhelmingly positive. The information and insights that you shared on “self talk” and attitude was very beneficial and enjoyably presented. Everyone left very motivated.
